Professional Summary

Fourth-year Data Science student (BSc Hons, CGPA 3.3/4.0, graduating 2027) with demonstrated experience in machine learning, multi-agent AI, cloud-native full-stack development, and enterprise data warehousing. Proven ability to deliver production-ready systems with quantifiable improvements (40% faster resolution, 94.2% accuracy, 87% AUC-ROC). Prior professional experience in operational roles has built strong discipline, teamwork, and reliability. Seeking an internship where deep ownership and long-term system understanding are valued.

Technical Skills

- **Languages:** Python, JavaScript/TypeScript, Java, Kotlin, C++, SQL, R, PHP
- **AI/ML & Data:** Scikit-Learn, Keras, XGBoost, Streamlit, Generative AI (LLMs/Ollama), Multi-Agent Systems, Explainable AI (SHAP/LIME)
- **Frameworks:** React.js, Next.js, Node.js, Express.js, Spring Boot, Jetpack Compose, Tailwind CSS
- **Cloud & Databases:** AWS, Azure, PostgreSQL, MongoDB, SQL Server, Redis
- **BI & Tools:** Power BI, SSIS, SSAS, Git, Postman, Linux

Key Projects

All projects available at github.com/TharukshaPramod

CampusFlow: Smart Campus Management

Spring Boot, React, Ollama (Llama 3), PostgreSQL

Microservices, AI Integration

- Engineered microservice-based campus platform for facility bookings and incident reporting; integrated local Llama 3 AI assistant for automated incident triage, **reducing simulated resolution times by 40%**
- Resolved concurrent booking conflicts using database transaction isolation and pessimistic locking

CropSense: Multi-Agent AI Yield Prediction

Python, Multi-Agent Systems, Neural Networks, SHAP/LIME

94.2% Accuracy

- Developed distributed multi-agent system achieving **94.2% crop yield prediction accuracy**
- Applied Explainable AI (SHAP + LIME) to provide transparent feature importance metrics

CrimeCast: Chicago Crime Prediction

XGBoost, Random Forest, Python, Mapbox

7M+ Rows, 87% AUC-ROC

- Built ML system forecasting arrest probabilities on 7M+ historical records; achieved **87% AUC-ROC**
- Integrated interactive Mapbox spatial visualizations for risk-aware decision support

Olist E-Commerce DWBI Solution

SQL Server, SSIS, SSAS, Power BI

Enterprise Data Warehouse

- Architected star-schema data warehouse with SSIS ETL pipelines processing raw CSV data
- Created SSAS OLAP cube semantic layer powering executive Power BI dashboards

BudgetLyst: Offline-First Finance Tracker

Kotlin, Jetpack Compose, Room, Coroutines

Android, 60 FPS

- Built offline-first Android app with biometric authentication and SQLite database

- Maintained **60 FPS** smooth UI with custom canvas expense graphics using Kotlin Coroutines

SiteMaster & Invexa (Enterprise Platforms)

MERN Stack, Socket.io, Stripe, MongoDB

Real-time Systems

- Delivered full-stack MERN platforms featuring real-time WebSocket alerts, interactive Gantt charts, and Stripe checkout integration

Education

BSc (Hons) in Information Technology — Data Science Specialization May 2023 – Expected 2027
Sri Lanka Institute of Information Technology (SLIIT), Malabe, Sri Lanka

CGPA: 3.3/4.0 | *Fourth-year student*

GCE Advanced Level (Physical Science)

2020 Central College Kuliyaipitiya, Sri Lanka — 3Cs

GCE Ordinary Level

2016 Central College Kuliyaipitiya, Sri Lanka — 6As, 3Bs

Leadership: Captain of Volleyball Team, Captain of Chess Team, CADET Member

Professional Experience

Operations Team Member Feb 2022 – Feb 2023 MAS Holdings, Pannala, Sri Lanka | **Tenure: 1 year**

- Supported production operations at a leading apparel manufacturer; developed process discipline, cross-functional collaboration, and reliability under deadline pressure

Salesperson

Nov 2021 – Feb 2022 SuperServ, Pannala, Sri Lanka

| **Tenure: 4 months**

- Gained customer-facing experience and problem-solving skills in a fast-paced retail environment

Sales Attendant

Dec 2019 – Jan 2020 DSI Samson Group, Kuliyaipitiya, Sri Lanka

| **Tenure: 2 months**

- Early career exposure to professional workplace standards and team coordination

Licenses & Certifications

- **Cloud Computing (AWS & Azure):** 22+ certifications including AWS Cloud Practitioner, Connecting VPCs, Highly Available Web Applications, Azure Virtual Networks
- **AI, ML & Data Science (Simplilearn):** Machine Learning Using Python, Generative AI for Beginners, Applied Data Science with Python, Deep Learning with Keras
- **Software Engineering & Databases:** Full Stack Java Development, Cyber Security, MongoDB Atlas

Additional Information

- **Languages:** English (Professional working proficiency), Sinhala (Native)
- **Availability for internship:** Available immediately & flexible with duration
- **Portfolio:** tharuksha.vercel.app
